Team 4: Milestone 2 GUI Mockup with Balsamiq Tool

Group Number: 4; Team Name: "Cheesy"

Group Members:

- Anthony Pancione – apancione2018@fau.edu
- Jonah Livingston - livingstonj2015@fau.edu
- Nicholas Child - nchild2019@fau.edu
- Tyler Do - tdo2018@fau.edu

The image is a mockup of a web browser window titled "OwlTalk! Sign-In". The address bar shows "https://Cheese.com". The main content area features a placeholder for a logo with the text "Insert Logo Here...". Below this is the heading "Log in to your OwlTalk account". There are two input fields: "OwlTalk ID" and "Password". A "LOGIN" button is positioned below the "OwlTalk ID" field. To the right of the "LOGIN" button are two links: "Create Account" with a plus icon and "Forgot Password" with a question mark icon.

LOGIN PAGE

This is a mockup up for the initial login screen viewed upon first visiting the site.

The user will be able to log into their account, after filling out the required "OwlTalk ID" and "Password" input prompts; provided they have already made one.

If they have not already made an account, they can click the "Create Account" link to access a different page where they can do just that.

Or if they have already created an account but forgot their password and login information, they can click the "Forgot Password" link for help on that.

The screenshot shows a web browser window with the title "OwlTalk! Reset Password". The address bar displays "https://Cheese.com". The main content area features a placeholder for a logo with the text "Insert Logo Here..." and a small square icon. Below this, a message reads: "Enter the email address you registered with and we will mail you a link to reset your password". A text input field labeled "Email" is positioned below the message. At the bottom of the form are two buttons: "Cancel" and "Reset Password".

RESET PASSWORD

This is an alternate version of the Sign-In page that can be accessed when the user hits the "Forgot Password" button on that page.

If the user does indeed have an account tied to the Email they input, that Email will receive a link giving them further instructions on resetting their password and logging them in.

The mockup shows a web browser window titled "OwiTalk! Create Post" with the address bar displaying "https://Cheese.com". The main heading reads "Create a Post for discussion with your fellow FAU students :)". Below this is a form with a "Title (Optional)" label. The form includes a profile picture placeholder (a simple smiley face), a rich text editor toolbar with buttons for Bold (B), Italic (I), Underline (U), Strikethrough (ABC), a style dropdown, bulleted and numbered list icons, link and unlink icons, and an image icon. The text area contains five lines of placeholder text, each line consisting of a series of wavy lines followed by a small circle. A vertical scrollbar is on the right side of the text area. At the bottom of the form are two buttons: "Cancel" and "Submit".

CREATE A POST

This is a mockup of the interface the user will be presented with when they click the "Create Post" option on the standard Home Screen.

The information they input here will be turned into a newly created post on the site's discussion board.

Cancel can be clicked to return to the previous screen if the user decides they want to discard the post so far.
